

Lanier Advocate V Itemized Features

4 Track - 4 Channel Transcriber

The **Lanier Advocate V Transcriber** is a four-channel, four track standard cassette transcriber designed specifically for transcribing cassettes from the Advocate V Recorder. The built-in search pad allows easy access to specific locations on the cassette. Voice Separation provides clarity when more than one person is talking at a time. The optional VOR/Time Injector provides data and time display for cassettes recorded in voice logging applications.

Features:

- Voice Track Separation
